TO WEST

Forward

The "Legend" is a collection of memories. It is a symbol of ideas which will in later years become a legend. As a new school, Maine West has not established traditions and must start its own.

We, the student body, recalled not only the memory of the old school but also looked forward to the new year. Among the things we remember are the homecoming game and dance, the senior class play, the basketball games, the variety show, and finally, the commencement exercises.

A freshman comes to the school not knowing how to act. The sophomore looks back on his freshman year with a smile, thinking of the silly things he did. A junior looks back on his last two years but to a greater extent looks forward to his senior year. He knows that this will be his most important year. The senior looks back on his four years with nostalgia. This nostalgia, however, is overpowered by a greater desire of going to college or of holding his first full time job.

Willie the Warrior, mascot of the "Legend," is going to take you on a tour of the building and introduce the staff and student body. He will visit clubs, games, events, and each homeroom. So let's accompany Willie on the tour as he says, "Welcome to West."

"The basic objective of public education is to prepare youth to live in a democratic society. How well this structure serves depends upon the efforts of the youth, the devotion of the faculty, and the loyalty of Maine Township citizenry to the ideals of freedom. The future opportunities are unlimited."

Superintendent

EARLE W. WILTSE
Ph. D.
38 years experience

Many of the most valuable experiences in high school are found in the extracurricular activities. They are carried on voluntarily without the benefit of school credit. The school annual is an outstanding example. Literally dozens of students gave hundreds of hours of work in planning, preparing, and producing this record of the beginning of Maine Township High School West.

This annual reflects those school activities that give color to a well-rounded education. It is a valuable documentation of the present. In time, it will become a more valuable record of the past.

EARLE W. WILTSE
Superintendent

Principal

I welcome this opportunity given me by Mr. Walker and the "Legend" staff to say bon voyage to our seniors and to express my appreciation to the entire student body for their splendid cooperation in making this, our first year at Maine West, a most successful one.

By diligence and hard work you, as students, have indicated your concern for a sound education: an education which will enable you to participate as articulate and discriminating citizens in the difficult years that lie ahead. I know you share my sentiments in saying thanks to our faculty for providing this kind of educational climate.

The results of our first year hold promise for a good future at Maine West. I know that our teaching staff will continue to provide stimulating experiences for you, the students; and you, in turn, will profit from these experiences.

The tremendous advances of science and technology presage a better tomorrow—less physical work, more leisure, more luxury, a longer and happier life for all; in short, a society that can do much to help the individual develop to his maximum potential by freeing him from the drudgery of the work-a-day world.

Yet, if our citizenry is not literate, vigorous, and deeply appreciative of the democratic ideal, the future that could be ours may never be. Therefore, let us firmly resolve to accept the challenge of the future and work steadfastly to improve and protect our way of life.

Art

Total experience: 22 years

The Art department attempts to offer the student of various grades and abilities the opportunity to express himself creatively. This is an important developmental activity for all, and a very good means toward self-realization. Students are encouraged to visualize, imagine, express himself honestly, develop ideas and to think for himself. The learning of art skills and knowledge will develop tastes and judgements; appreciation for a well rounded life (present and future); in planning for living; forming a philosophy of life; in appreciating the world around us all; in making wise use of our time; in adding to our cultural heritage; and in choosing well designed functional products we all must select.

Business Education

Total experience: 106 years

It is necessary for every student to have a salable skill and to be prepared to solve everyday personal business transactions. In our complex society it has become increasingly clear that all students should be acquainted with the facets of business in order to organize and manage their economic future. A large percentage of our students look for jobs immediately upon graduation and it is the responsibility of the schools to prepare these students for initial job competence.

The Business Education department prepares students for economic literacy, teaches salable skills, personality development and the ability to manage his own business affairs. The Business Education department is an integral and functioning part of our curriculum.

English

Total experience: 212 years

Critical, analytical, and independent thinking is developed through the study of English. Frequent theme assignments aid students in giving accurate and logical expression to their own ideas. Through literature students gain insight and understanding into their own problems, as well as those of other peoples and nations. In class discussions students learn to weigh and consider the opinions of other students and to state effectively their own ideas.

Home Economics

Total experience: 22 years

Through Foods, Clothing, and Home Management classes directed to girls, and Family Living open to both girls and boys, the Home Economics department strives to help students identify and develop certain fundamental competences that will be effective in personal and family living regardless of the particular circumstances of the individual or of the challenges of change. Our goal is to help individuals achieve satisfaction and beauty in their own lives, dignity and assurance in their relationships with others, and to build strength within their homes and democracy in the community.

Fifty years ago the first president of the American Home Economics Association predicted: "The well-educated people of the future will blend art and science in a way we do not dream of; the science will steady the art and the art will give charm to science." Today our goal is to realize this prediction; we focus our attention on the development of the competences fundamental to effective living and on the achievement of good interpersonal relationships in the society of today, tomorrow, or even into the next century.

Industrial Arts

Total experience: 114 years

The industrial education department is an integral part of the general education program at Maine Township High School West.

Our program provides exploration into various industrial areas. The student can increase his or her knowledge of the technical information by taking advanced courses in any of the areas in industrial education. In this way, the students provide themselves with a background which will allow them to become useful to themselves, to their families and to the community.

Language

Total experience: 67 years

The student in foreign language, whatever his reason for taking the course, learns much besides the language itself. Since language reflects society in all its aspects, the student must necessarily acquaint himself with the history, literature, geography, art and customs of the country whose language he is studying. He learns to understand not only words, but people. It is, of course, this very understanding which the world is striving for today. The alternative ranges from extreme tension to annihilation.

Mathematics

Total experience: 106 years

Most people are aware of the great importance of mathematics in our everyday lives. Constant references are made to its great contribution in the fields of science and engineering. With the coming of the space age the importance of mathematics becomes even more apparent.

Fewer people are aware of the many uses of mathematics in cultural fields such as music and art. The study of mathematics is basic to statistical studies in every field of human endeavor.

A continued study of mathematics unfolds the most beautiful and logical structure ever conceived by the mind of man.

Science

Total experience: 83 years

We are living in a scientific age. We are often told that we are living in an atomic age yet few individuals find that the new knowledge of atomic energy has any direct influence on the way they live.

To help students at Maine West understand this scientific age is one of our main purposes. We also hope that our young people will develop an extensive scientific vocabulary and gain an understanding of the principles of biology, earth science, physics and chemistry.

Here we are at last. These four years have passed by so quickly. This year, our last year, has been the most exciting and the most enjoyable. We started the year off right by winning second place with our float, "Put a Demon in Your Tank," in the Homecoming Parade. Our play, "The Man Who Came to Dinner," was a big success. There was a crowd both nights; presenting the play was as much fun as those "mad" rehearsals. Trail Blazers Flight '60, our P.T.C. party, was great fun. Other highlights of the year followed. Of course, they were the Prom and Graduation. The Prom was a night we will all remember. Graduation found us full of mixed emotions. Although we are sorry to leave this new school, we are looking forward to the future.

"Put a Demon in Your Tank"

President: MIKE CALLAGHAN

Vice-President: DICK GEISLER

Secretary: LYNN TURNER

J U N I O R

Sponsors: MR. MOELLER AND MRS. PAULSON

Treasurer: MARGO BECK

The Junior Class has enjoyed a very successful year. It started with our float "Ears to Victory" winning first prize in the Homecoming Parade. From there we moved to one of the best class parties of this year, "Like A Party." Our P.T.C. party was enjoyed by parents, teachers, and students. No one who attended our Junior Prom will ever forget the fun all of us had. With such a successful year behind us, we are eagerly looking forward to our Senior Year.

All's quiet on the Western front.

Maine East was never like this.

No children allowed!

Why don't they move to the rear of the bus?

This year, we, the sophomore class, got off to a rousing start by having a class party, the "Fall Flop." Because of much hard work on the part of many, a sophomore class paper was published; and overnight it became a grand success. The P.T.C. party, "South of the Border," was enjoyed by our parents as well as ourselves. Since we have a much smaller sophomore class, we feel much more unified. The class, as a whole, has worked together in planning many of its activities for the year and has high hopes of continuing its outstanding achievements next year as juniors.

We, the class of '63, are on more of an equal basis with the other classes this year than any other freshman class that will attend Maine West in the future. We are the ones who, having no remembrances of another high school, are "growing up" with Maine West and are helping to establish the reputation and new traditions of this school.

The class of '63 has contributed much in its first year here. We have participated in school activities and yet have maintained a good scholastic record.

We are looking forward to our next three years at Maine West and are hoping at the completion of our senior year that we can *proudly* say, "We were the first class to complete all four years of high school at Maine West."

Legend

The Legend had many problems this year because of an inexperienced staff; but as time went by, the staff seemed to take each problem in stride.

It takes many things to make up a good yearbook staff. Among these are: a willingness to work, an interest in what people are doing, and a desire to improve the yearbook. The staff members possessed these qualities and with the able direction of Mr. G. J. Walker, the first yearbook at Maine West was a success.

Westerner

The *Westerner*, in its first year of publication, has a staff consisting of 17 members. Most of these students took journalism during their junior year, usually a requirement for a position on the staff. The paper has appeared every two weeks a total of 15 issues.

Staff members work from the first day of school to the day the last issue is distributed.

The *Westerner* endeavors to record all important news and school events. It tries to arouse and foster school spirit and show other schools it has a high standard in regard to news presentation and editorial policy.

MISS BUCK, Sponsor

The central organization of student government at Maine West is the Student Council. Consisting of seventy representatives, this organization represents the entire student body. Because the main purpose of the Council is to make our school a better school, its organization and its operation are very important.

Why do we have a Student Council? A conscientious and well-organized Student Council is capable of making a large contribution to its high school. The Student Council prepares its students for sound citizenship by providing for the expression of student opinion; it tries to build a good relationship between students and faculty; it is a means of co-ordinating student activities; it endeavors to keep the school spirit on a high level.

DOUG WRIGHT, President of Student Council

These are the men who are responsible for one of the greatest football teams in Maine's history. There was no one outstanding player, but the team in itself was certainly outstanding.

They started the season by defeating powerful Evanston, non-conference, then went on to complete their season without a loss, taking conference, Thus defeating the 'Mythical champs,' of the Suburban Conference for the state title.

Pete
Best of
luck to a real
sweet guy. I've had
a lot of fun this past year
in Art with you. And lots of
fun this summer
if that's possible
I stay out of trouble
I try not to get any more tickets
Love you
Carol Turner

Dear Peter-
These three years
have really been
great and there's hoping
that we're in the same
homeroom next year.
Say hi! to Eddie for
me this summer. ok?
Be a good boy
Love ya
Sue
